6. USB-C interface
7. USB-C to USB-C cable
8. USB-C to USB-A adapter

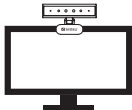

Connection

Mounting

On a Desk

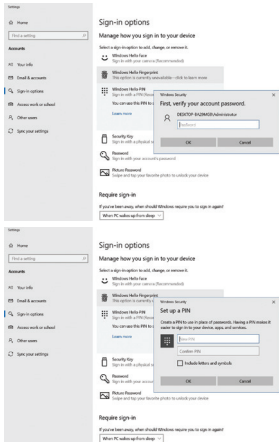

On a PC Monitor

Setting Up Windows Hello function

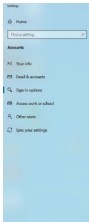

1) Open "Settings" and click on "Accounts", then "Sign-in options".

2) Set up a PIN code.

The screenshot shows the Windows Settings application. On the left, the 'Accounts' section is expanded to 'Sign-in options'. The main area displays 'Sign-in options' with the heading 'Manage how you sign in to your device'. Below this, there are several sign-in methods: Windows Hello Face (recommended), Windows Hello Fingerprint, Security Key, Password, and Picture Password. A 'Require sign-in' section is also present. Two dialog boxes are overlaid on the screen. The first dialog box is titled 'First, verify your account password' and contains a password field and 'OK' and 'Cancel' buttons. The second dialog box is titled 'Set up a PIN' and contains fields for 'New PIN' and 'Confirm PIN', a checkbox for 'Include letters and symbols', and 'OK' and 'Cancel' buttons.

- 3) You will now see which options are available. Face option and set up.

Sign-in options

Manage how you sign in to your device

Select a sign-in option to add, change, or remove it.

Windows Hello (Face)

Sign in with your camera. (Recommended)

You can sign in to Windows, apps, and services by touching Windows Hello to recognize your face.

- 5) Position yourself in the center, and the camera will register your face.

- 6) Optionally, you can improve recognition if for example you wear glasses.

The camera works driver-less and is compatible with most chat applications.
